EDUCATION:

- AI Student at Cairo University
 - Faculty of Computer Science
 - GPA 3.15
- (Expected Graduation: June 2027)

Helwan University
B.S. in Computer Science
Freshman Year Completed
GPA: 3.82
Academic Honor: Ranked 1st out of 1,000+ students in the freshman class.

STEM Maadi School
High School Diploma
Graduated July 2023.
Selected into one of Egypt's Top 1% elite schools for high-achieving students in Egypt

SKILLS:

- C
- C++
- C#
- python
- HTML
- CSS
- SQL
- SolidWorks
- Excellent problem-solving and analytical abilities
- Communication Skills
- Critical Thinking

LANGUAGE

- English
- Arabic

SUMMARY

High-achieving Computer Science student at Cairo University with 12 months of cumulative experience in AI/ML and IT Infrastructure. Previously ranked 1st out of 1,000+ students at Helwan University (GPA 3.82) before transferring via merit. Proven expertise in developing financial literacy tools for the Central Bank of Egypt, building geospatial pipelines, and engineering IoT solutions for national sustainability challenges. Seeking to leverage technical versatility and award-winning problem-solving skills within the TAEF Information Technology and Cybersecurity track.

EXPERIENCES:

- Konecta | AI & Machine Learning Intern** **January 2025 – July 2025**
Completed a comprehensive 6-month professional program focused on real-world AI applications and continuous learning.
- Collaborated with cross-functional teams to design and implement a graduation project demonstrating practical machine learning solutions.
 - Developed a deep understanding of model optimization and data processing within a professional corporate environment.
- Digital Egypt Pioneers Initiative (DEPI) | Full-Stack .NET Developer** **October 2024 – June 2025**
Graduated from an intensive track focused on Full-stack .NET Web Development, building scalable web architectures.
- Eden Facility Management (Hassan Allam Company) | IT Intern** **August 2024**
Optimized corporate network security by configuring firewalls and VoIP servers to ensure seamless communication.
- Managed the end-to-end device deployment lifecycle for end-users, including hardware setup and serial code management.
 - Partnered with senior IT engineers to troubleshoot daily technical tasks and maintain infrastructure reliability

TECHNICAL PROJECTS & COMPETITIONS:

- HERE Technologies Hackathon | Geospatial Pipeline Developer** **Feburary 2026**
Engineered a full geospatial pipeline within a 3-day intensive sprint using GIS systems.
- Optimized system performance and debugged complex code under strict time constraints to deliver a functional solution.
- IoT System for Environmental Conservation:** Developed an Arduino-based system using ESP32 and specialized sensors to monitor marine life impact. Directly addressed two Egyptian Grand Challenges by leveraging technology for environmental conservation and climate change assessment.
- Finology Competition (Central Bank of Egypt) | Co-Developer Smart Budgeters** **2025**
- Co-developed a digital financial literacy tool to promote financial inclusion among Egyptian youth.
 - Engineered "Hakeem Feloos," an interactive AI chatbot providing personalized financial guidance.
 - Implemented automated features for income tracking, goal-setting, and visual spending analysis using interactive charts.
- 1st Place:** Scratch Creative Programming Olympiad.
Winner: Governorate Phase, Microsoft Office Specialist (MOS) World Competition.

LEADERSHIP & VOLUNTEERING

- AIESEC Global Volunteer** **August 2025 – September 2025**
Borderland, Sri Lanka
- Instructed 70+ participants in social workshops and led outdoor/water-based camp activities.
 - Developed strong communication and leadership skills in a challenging international environment.
- YLY**
- One year of volunteer work with Youth Leading Youth (YLY), an organization under the Egyptian Ministry of Youth and Sports.
